Session Nº2.

Strategic Plan of Spanish Cadastre for Rural Territory

Doctor Agricultural Engineer and graduate in Political and Economic Organization of European Union.

I have worked 32 years in the Spanish General Directorate for Cadastre in several technical and management task, with increasing responsibility degree: 15 years in the area of Rural Cadastre; 4 years as Deputy Director of the Regional cadastral Office of Catalonia, and since February 2007 I have the position of International Affairs Coordinator.

Having this responsibility I have been representing the Spanish cadastre in the meetings and working groups of the international associations related with cadastre.

I have also participate in the technical groups of INSPIRE data specifications for cadastral parcels and buildings, UNGGIM and LADM, among others, and I have directed several projects both nationals and internationals.
