

BIOGRAPHICAL NOTE

Magdalena Andersson

Lantmäteriet | magdalena.andersson@lm.se |

Session Nº. 1 |

The Swedish real property register, geodata and
environmental information

Magdalena Andersson is working as a Business Developer at the unit of Real Property Information, Geodata in Lantmäteriet Sweden.

Main area of expertise is real property information as well as marine information in relation to the real property register.

She has a long experience from working in Lantmäteriet; earlier working areas has included e.g. information security and project management in St Petersburg, Russia.

She holds a B.S. in Systems Science and a degree in French.
